

STEP 1 Before uploading, make sure your file is the right size. The ideal dimensions are 500 pixels wide by 350 pixels tall—or the same proportions, which is a 5 to 3.5 ratio. Crop the flag tightly, leaving no margins around the edges. This ensures the pattern fills every tile cleanly, without any white borders showing.

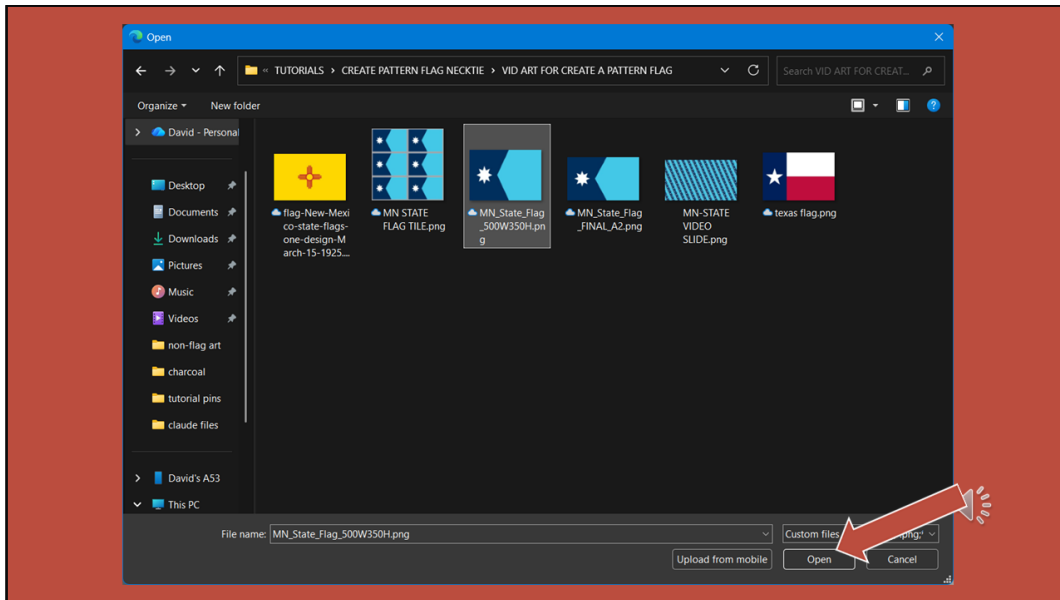

STEP 2 From the Create-a-Pattern (Flags) necktie product page, click on the Personalize this Design button.

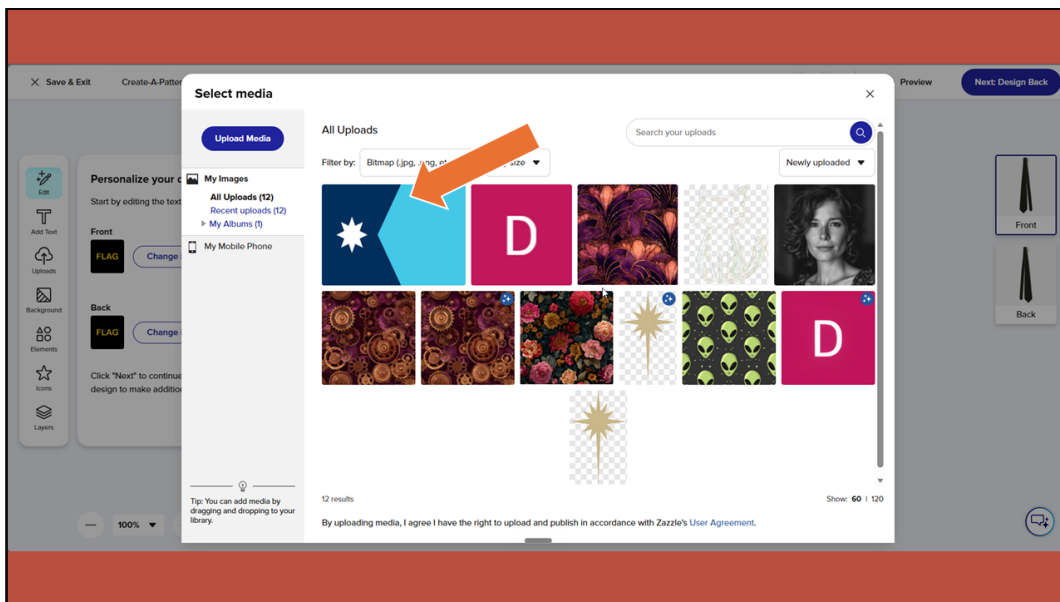

STEP 3 In the Personalize Your Design panel on the left side of the screen, click on the Change Image button.

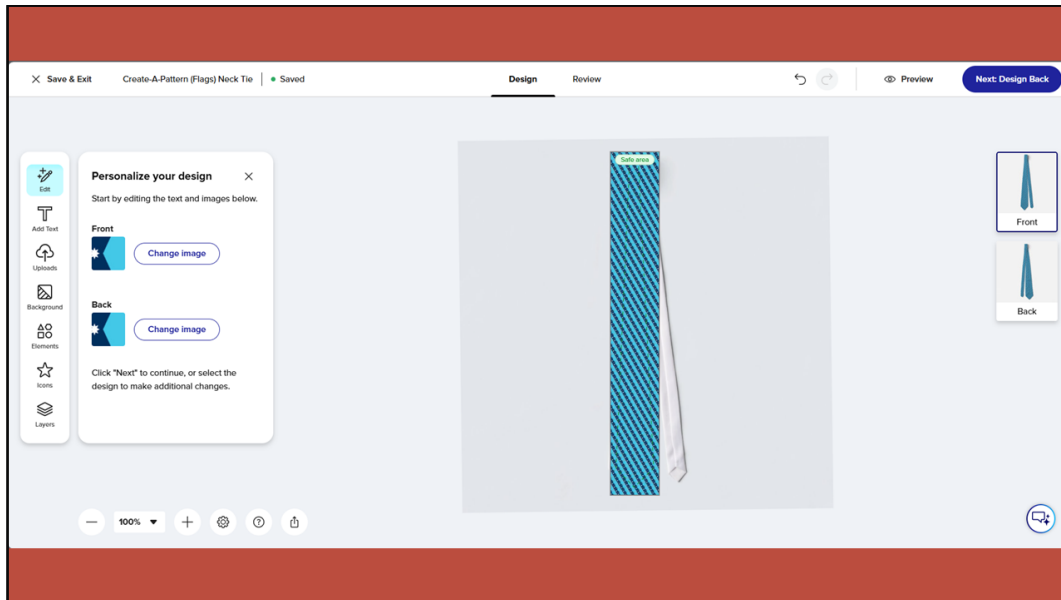

STEP 4 Click Upload Media.

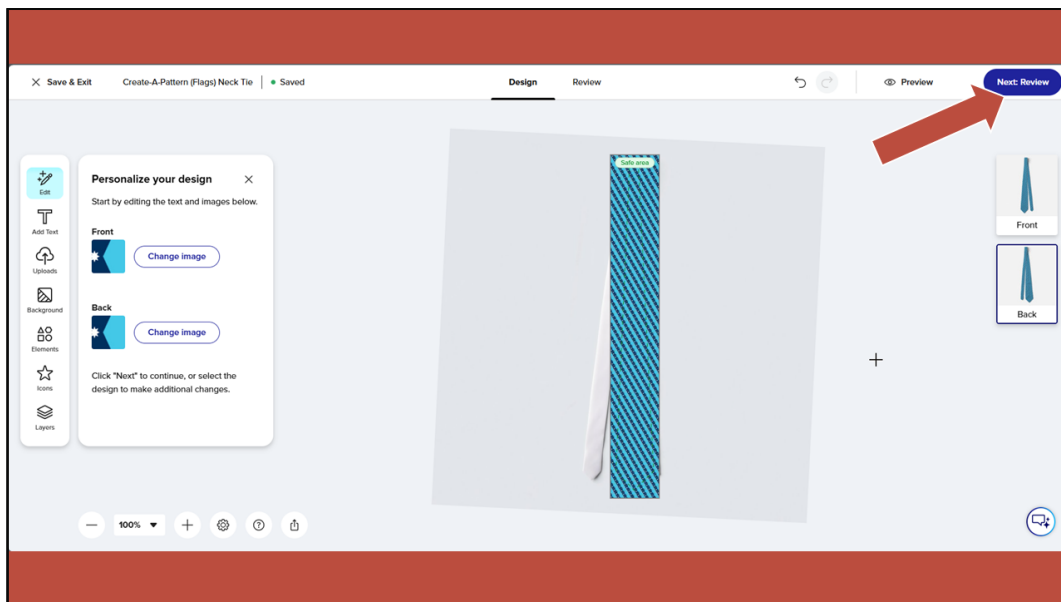

STEP 5 Select the flag image on your computer and click Open.

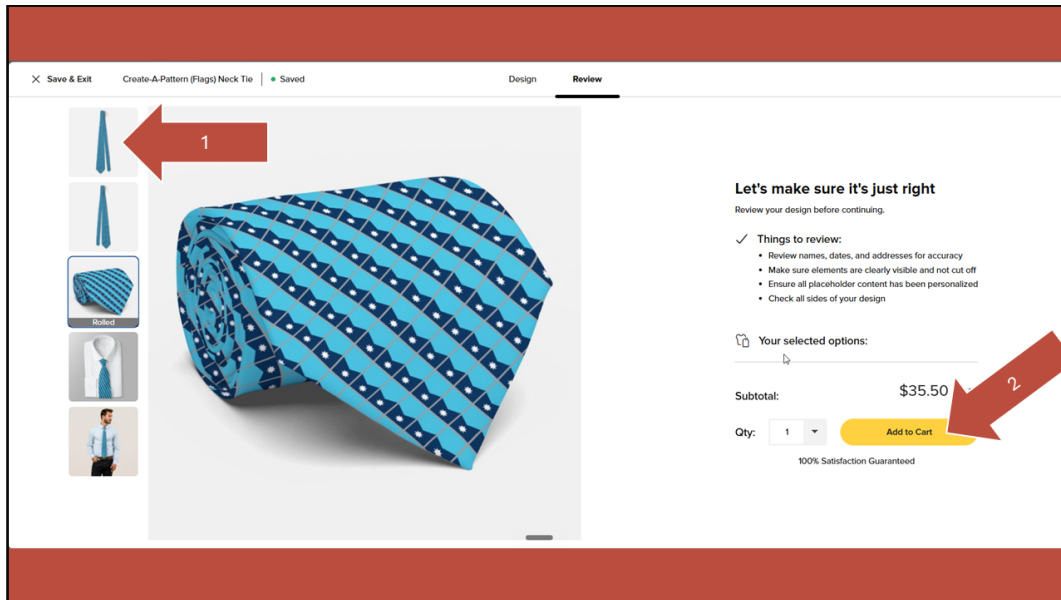

STEP 6 Select The flag image file you just uploaded.

STEP 7 Your flag pattern is automatically created on the necktie. To begin the final review of your necktie, click on the blue button in the upper right-hand corner labeled "Next Design Back".

STEP 8 This shows you the design on the back of the necktie. Click the blue button one more time.

STEP 9 As a final check, click the thumbnails on the right side of the screen to preview your necktie. If you need to address an issue, return to the art board by clicking Design at the top of the screen. If there are no issues, click Add to Cart to begin the purchase process.

Quick Tips

- 500 px by 350 px flag image file
- Or same proportions (5:3.5 ratio)
- Crop tightly, leave no margin

For a seamless experience creating your custom flag necktie, upload a flag image file that is 500 pixels by 350 pixels, or a file of the same proportions. Crop it tightly, leaving no margin.
