

“Want to make your flag tie stand out? In just a few clicks, you can resize, rotate, and personalize it.”

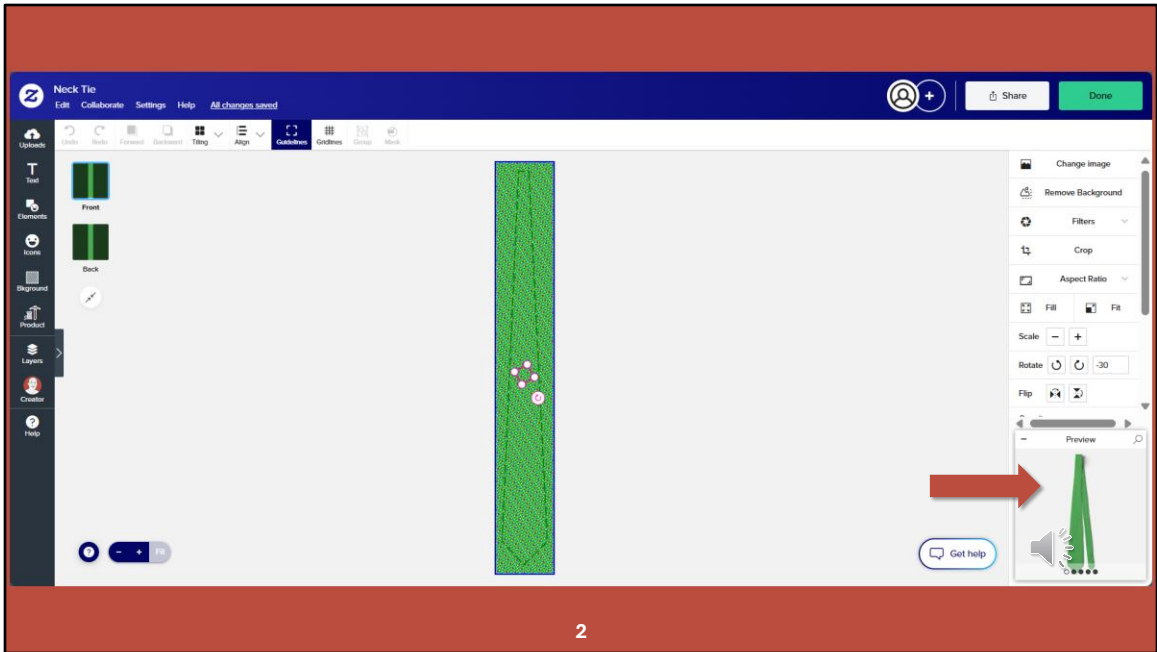

Hi I'm David from myties.net. Today's video will show you how to alter the size and angle of the pattern of your flag necktie using Zazzle's online designer.

Today we'll be using Brazil's flag necktie as our example, but the same steps apply to every country in this necktie collection.

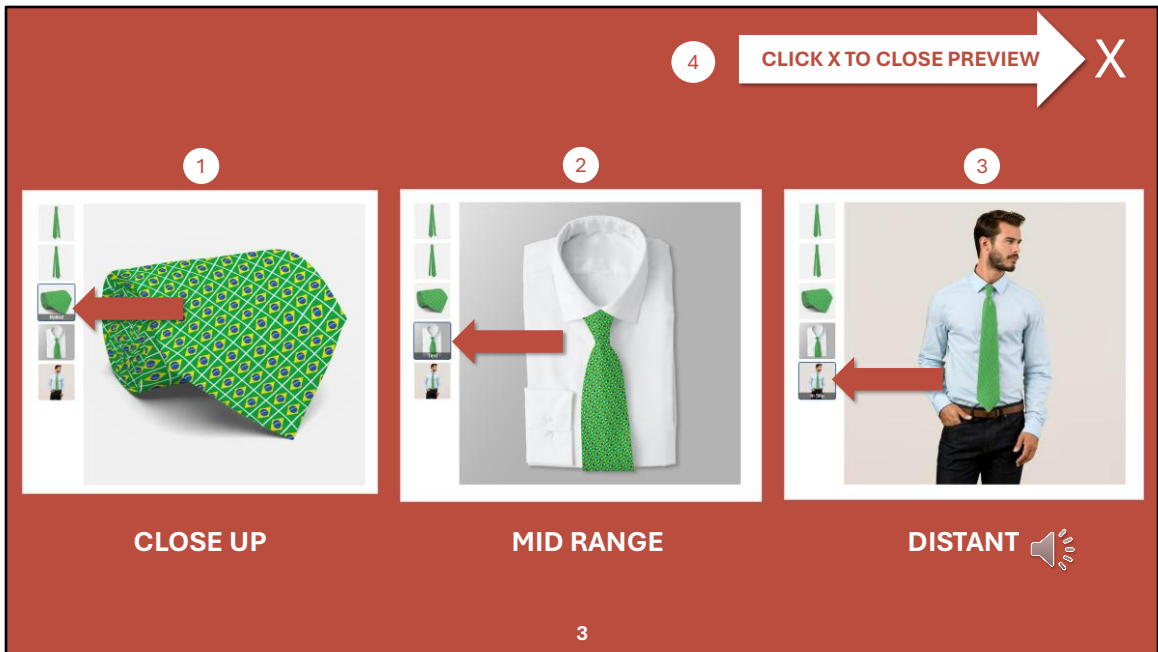

1

1. On the product page, click **Edit this design** to open the Zazzle designer.

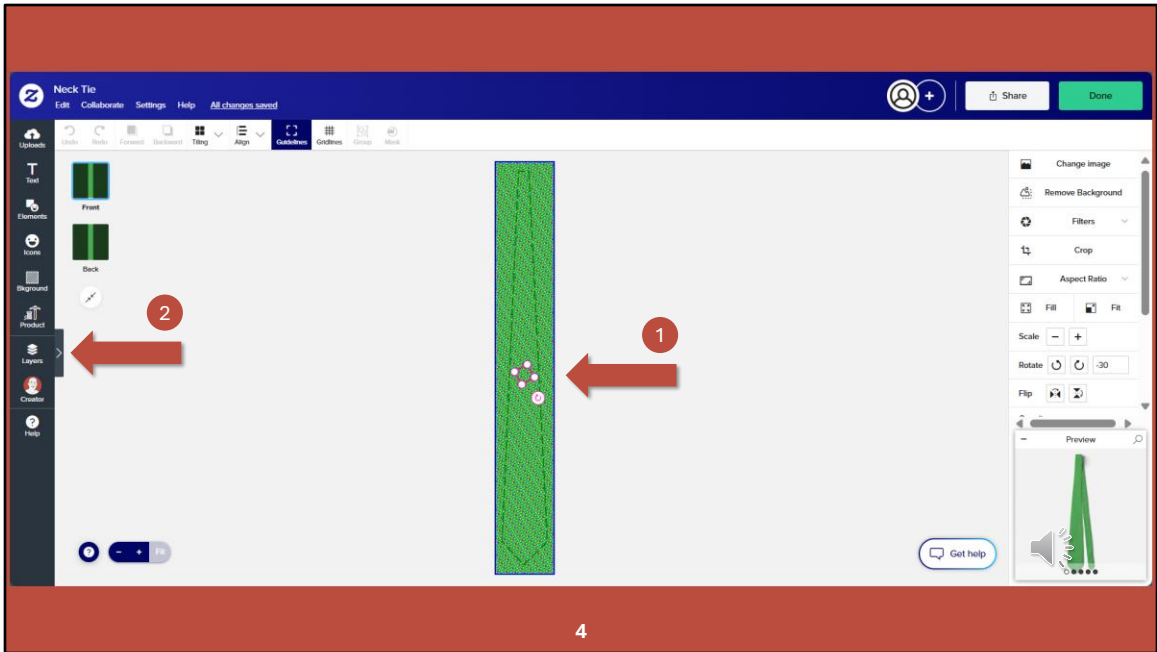

2. Open the preview window to see how the tie looks before making changes.”

.

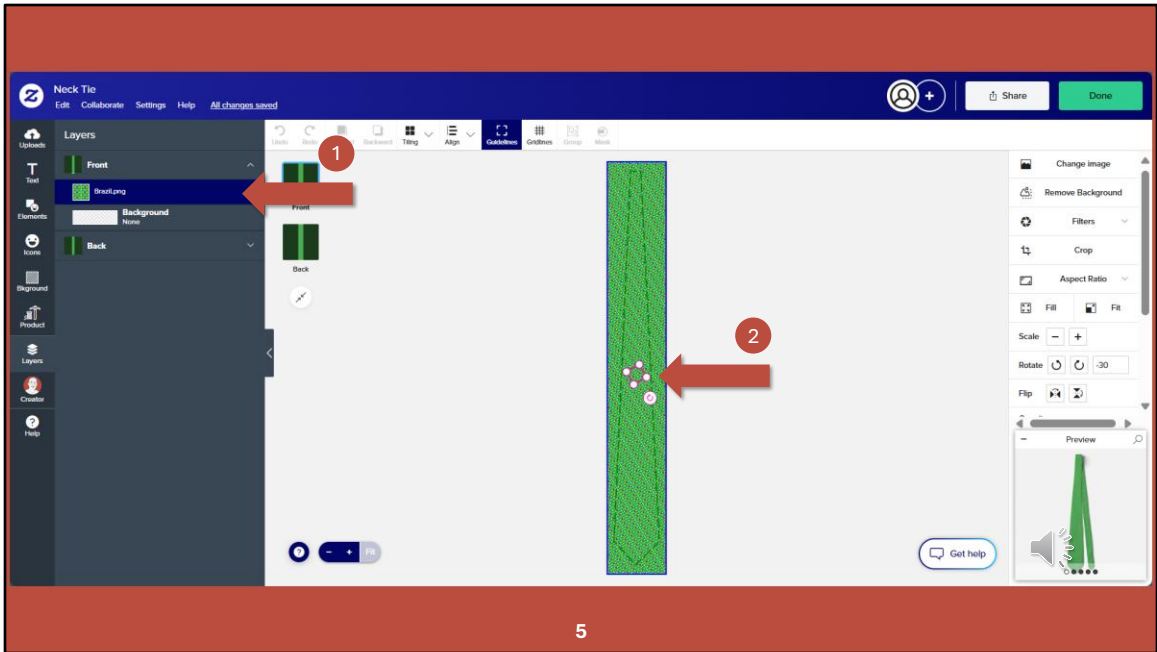

3. Use the bottom three preview options to check your design up close, midrange, and at a distance.

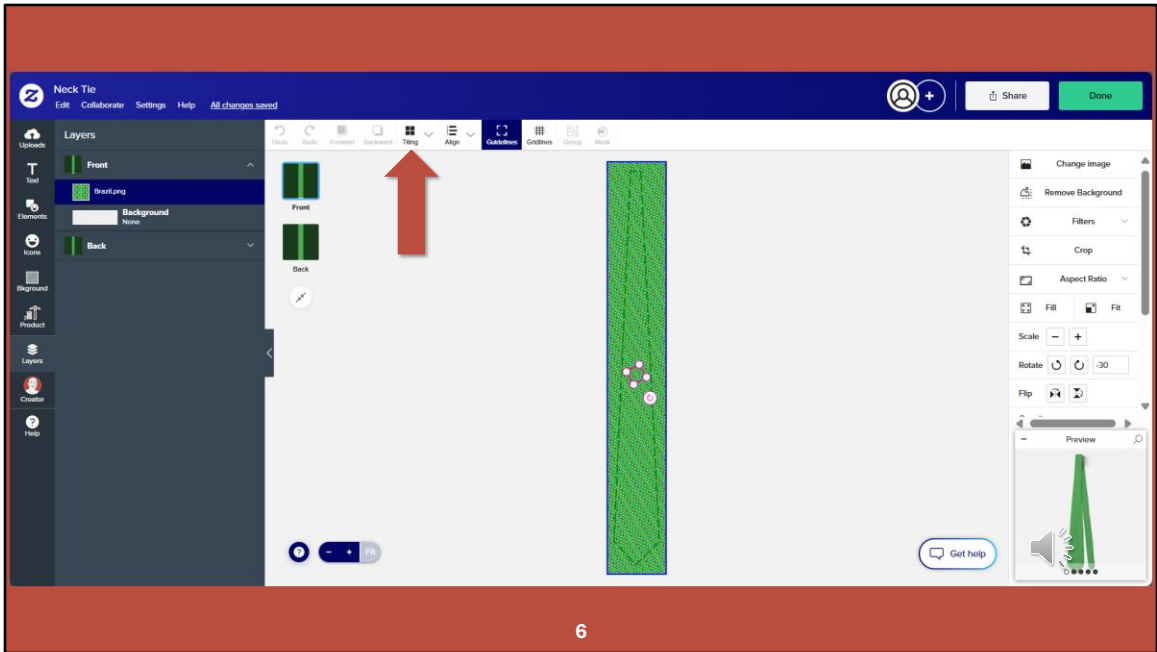

Close the preview by clicking X in top right to return to the art board.

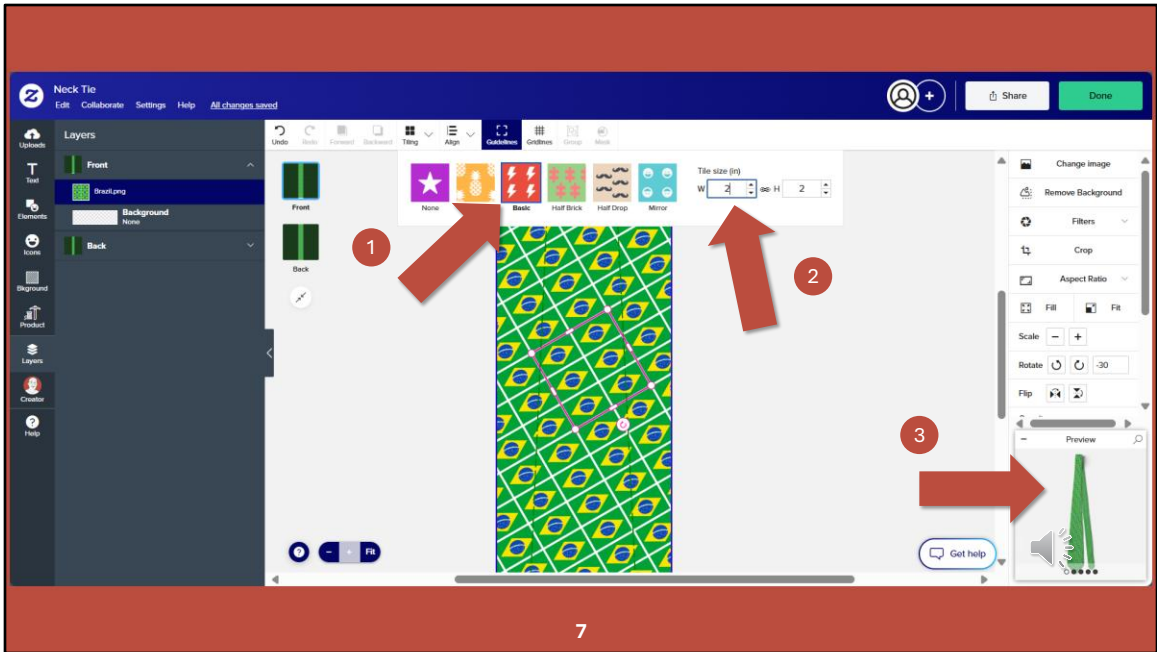

4. If the tile isn't already selected, open the Layers panel...

5. ... and click its name to highlight it on the art board.”]

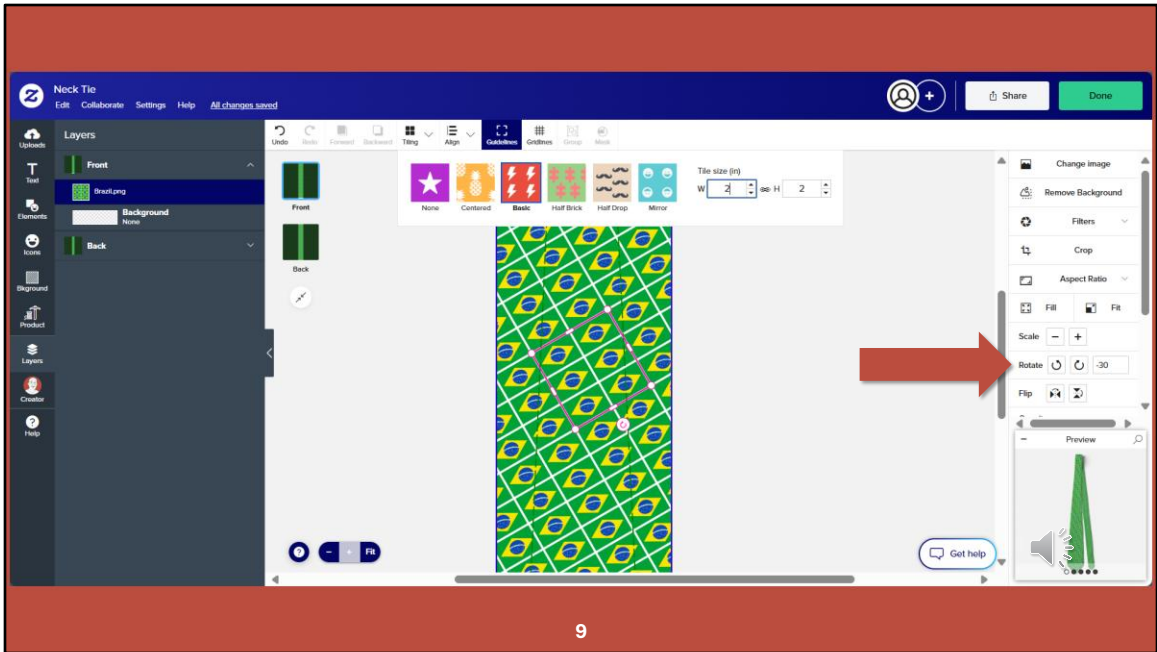

6. From the top menu, choose **Tiling** to see pattern options.

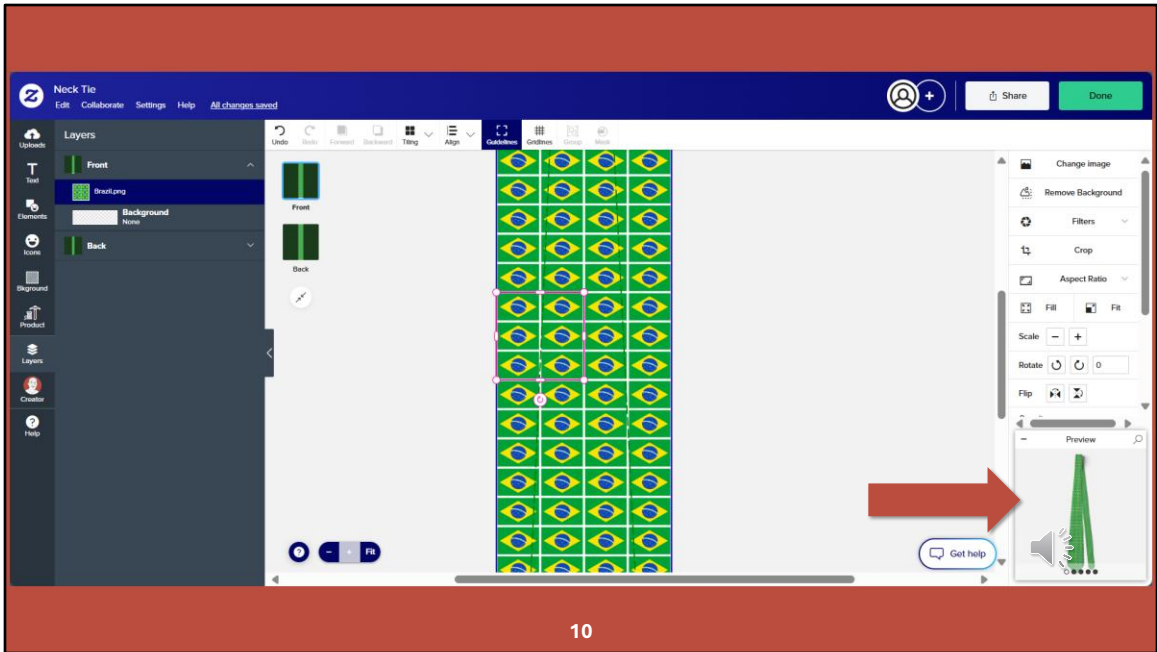

7. Currently the tile is set to 1 inch. Change it to 2 inches to double the size and create a bolder look.

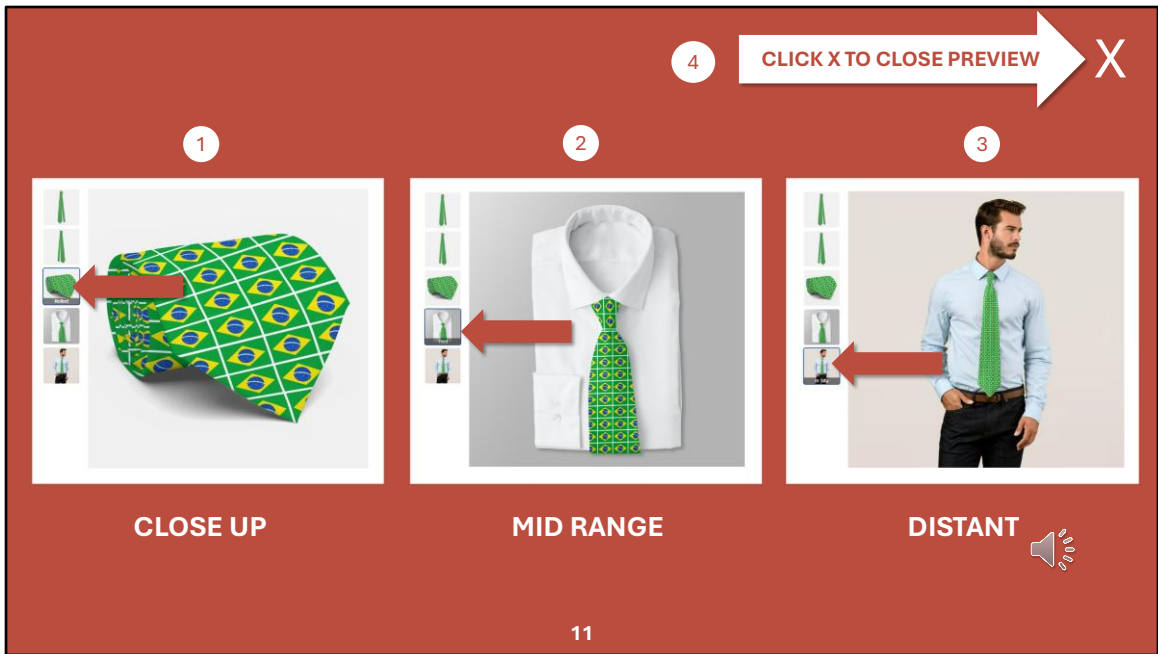

Check the previews again, then return to the art board to adjust the pattern's angle.

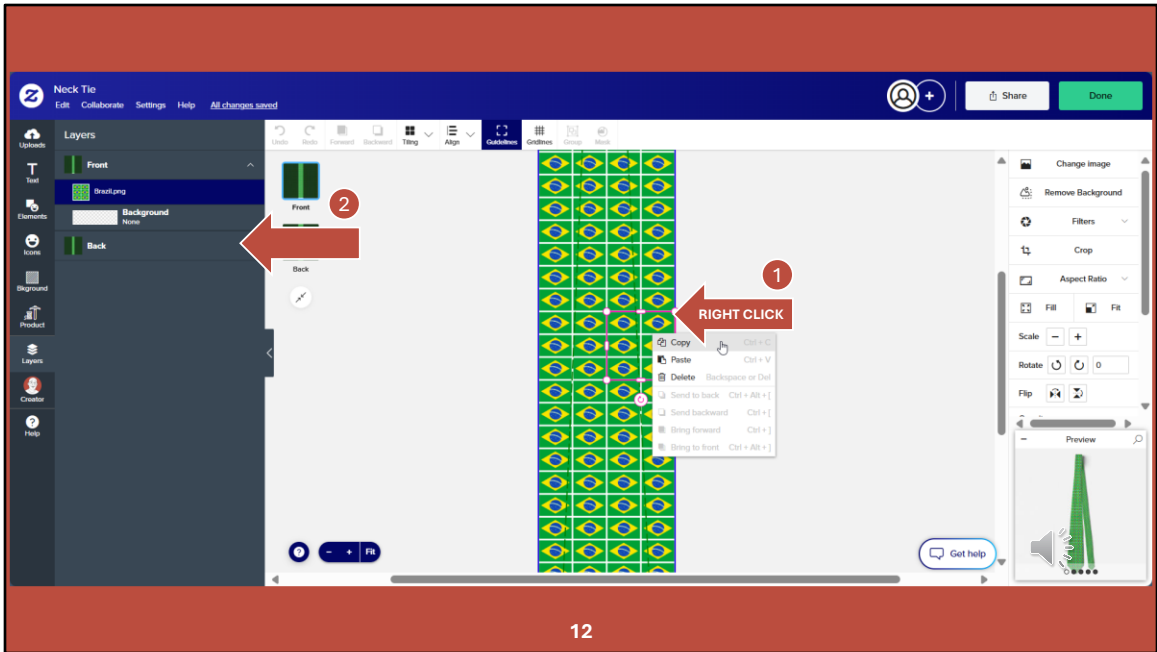

9. With the tile selected, find the **Rotate** setting in the right panel (currently set to -30). Change it to 0.

10. The pattern will now shift on the art board. The flags are now in a horizontal row. Let's look at the preview.

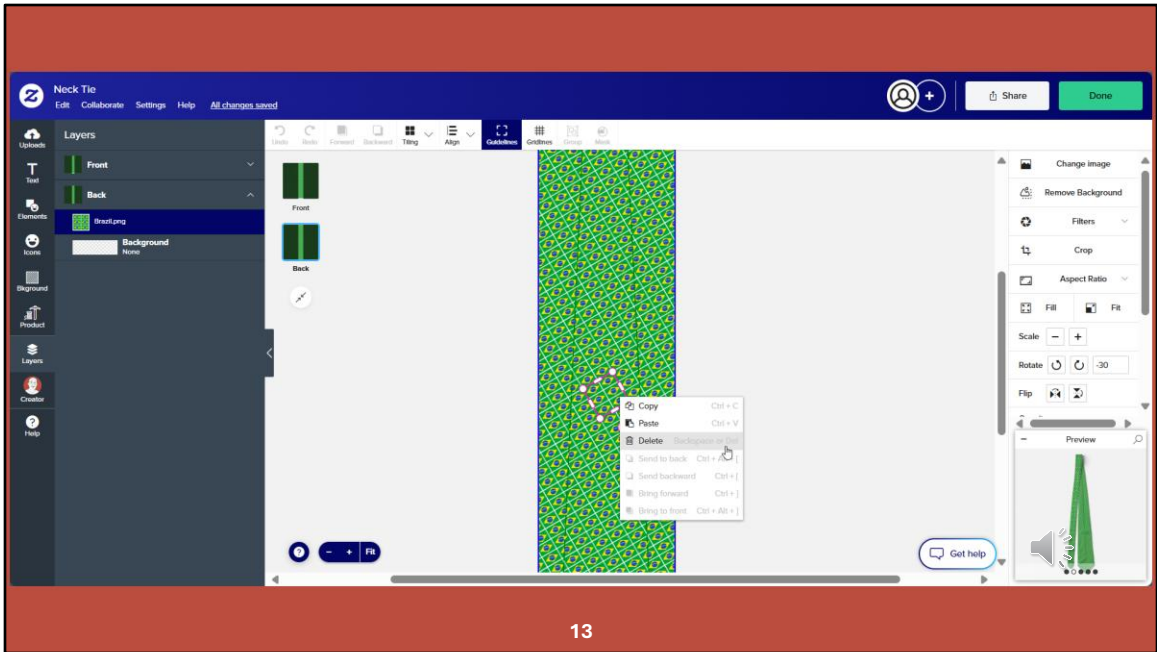

11. Review the changes, then return to the art board.

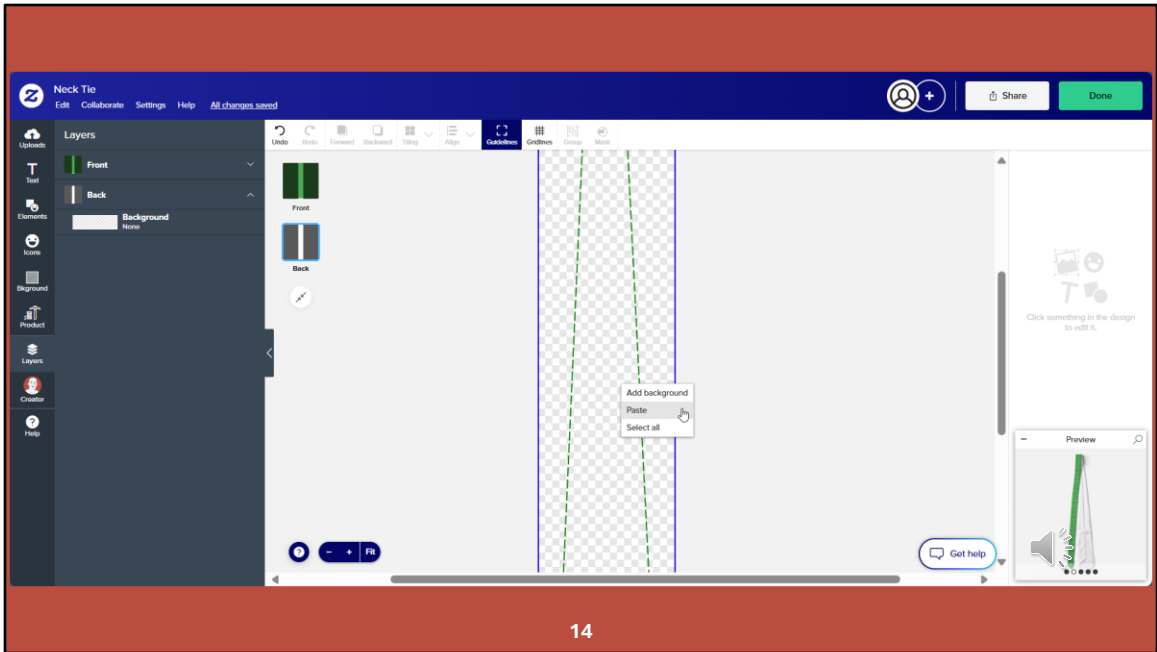

12. Now we need to place the altered pattern from the front of the tie to the back.

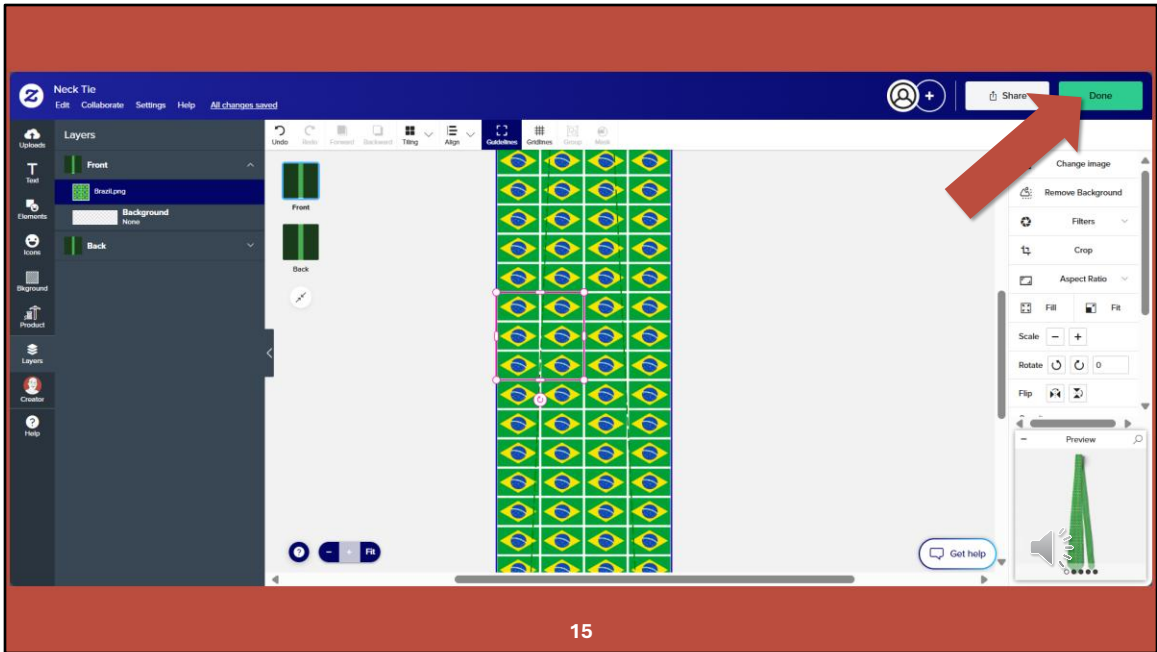

Copy the tile (right-click → Copy), then switch to the back layer in the Layers panel.”]

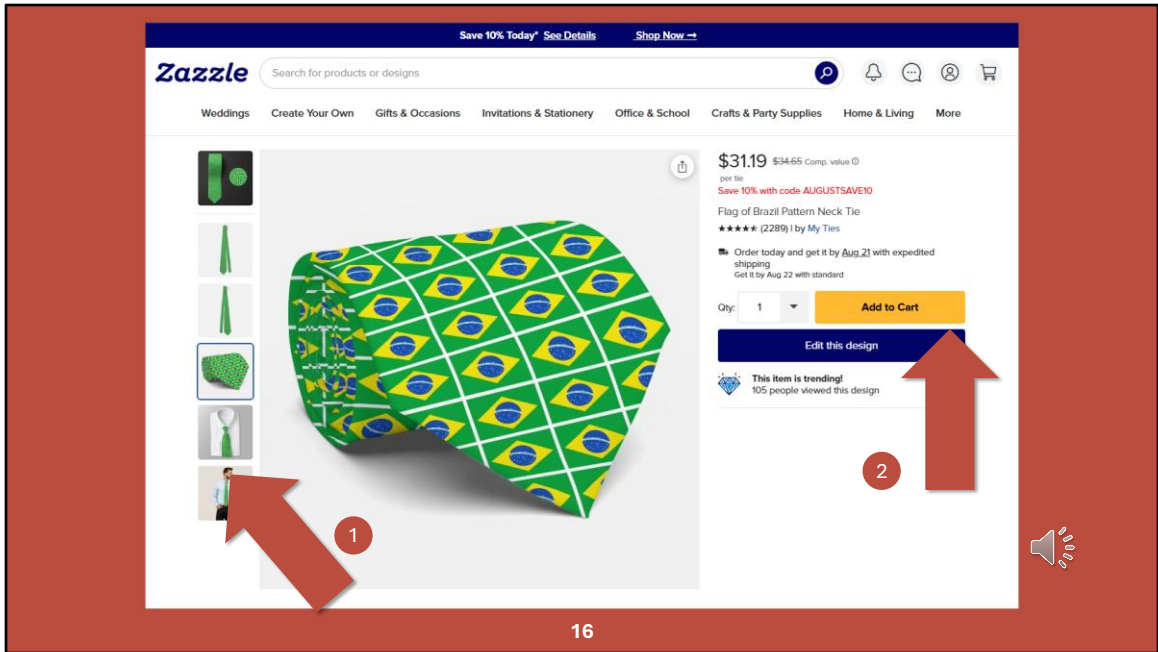

13. Select the tile on the back layer and delete it

14. Right-click and Paste the new tile onto the back.

15. Click **Done** in the upper right corner to save your changes.

16. Do a final preview check, then click **Add to Cart** to order your personalized tie.

Quick Tip

Create a Zazzle Account

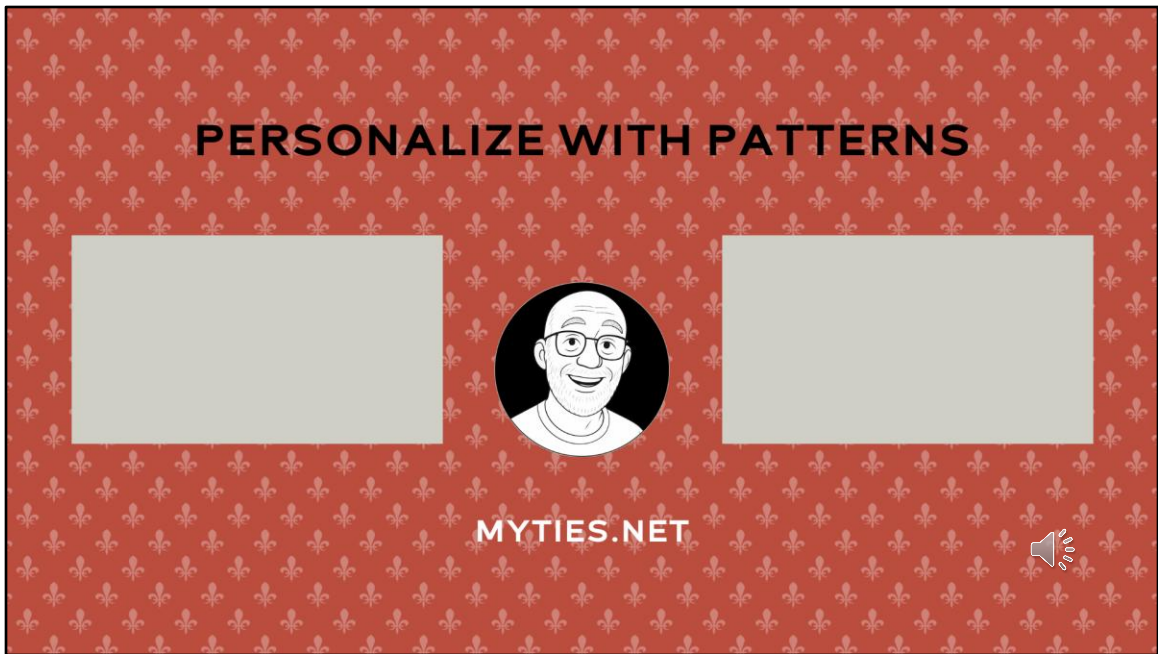

- Your designs will be saved in case of system interruption
- You can work across multiple sessions
- You can share your designs online
- No credit card required
- Sign-up link located at top of screen first time you use Zazzle designer

In closing, here's a quick tip:

Create a free Zazzle account the first time you design. It automatically saves your work and lets you return anytime.

You can even share your designs. No card credit required. You'll find the sign-up link at the top of the page.
